# Engagement Objectives

- The objective of an audit of financial statements is to express an opinion that the financial statements are in accordance with accounting principles generally accepted in the United States.
- The audit of financial statements will be performed in accordance with auditing standards generally accepted in the United States (GAAS).
- Those standards require that we plan and perform the audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement whether caused by error or fraud.
- Our audit includes consideration of internal controls over financial reporting, but we do not express an opinion on the effectiveness of such internal controls. Management is responsible for the design and the effectiveness of internal controls.
