

**San Francisco Bay Restoration Authority
Grant Round 9 Summary**

Note: Projects recommended for funding are shaded in green and listed in descending order by funding amount.

Organization	Project Name	Summary	Region	County	Project Phase	Amount Requested	Amount Recommended
The SPHERE Institute	Bay Rise Park (formerly Shoreline Park - Burlingame)	This project will transform a 9.4-acre vacant parcel of State-owned bayfront land into a public nature and recreation park and restore tidal marsh and transition zone habitats along the City of Burlingame's shoreline.	West	San Mateo	Planning, Permitting, Construction	\$8,000,000	\$7,000,000
East Bay Regional Park District	Hayward Marsh Improvements	This project includes the first of a two-phase construction project to restore tidal marsh and seasonal wetland habitats, upgrade levees, and improve Bay Trail public access at Hayward Marsh.	East	Alameda County	Construction	\$12,000,000	\$2,000,000
Richardson Bay Regional Agency	Accelerating Ecosystem-Scale Habitat Stewardship in Richardson Bay	This project will restore at least 20 acres of eelgrass, remove more than 3,000 pounds of marine debris from the seabed, and create opportunities for residents and students to participate in restoration and monitoring in Richardson Bay.	North	Marin	Construction	\$3,650,000	\$1,900,000
San Mateo County Flood and Sea Level Rise Resiliency District (OneShoreline)	Brisbane Living Shoreline Project	The project will collect data, design and permit a 30% plan to restore 50 acres of oyster habitat and 100 acres of eelgrass habitat along the Brisbane shoreline of San Mateo County.	West	San Mateo	Planning, Permitting	\$962,500	\$962,500
Napa County Flood Control and Water Conservation District	Napa River Estuary Enhancement and Public Access Project	This project will design and permit 30% plans to restore tidal wetlands at the of Napa River Wetlands by breaching the existing levee to allow for the return of tidal influence and wetland habitat, as well as construct a raised pedestrian trail in the Napa River Estuary.	North	Napa	Planning, Permitting	\$600,000	\$600,000
Trust for Public Land	Golden Gate Fields Acquisition Project	This project will acquire the 161-acre Golden Gate Fields for open space and habitat restoration in fee title for \$175 million and transfer it to a public agency such as East Bay Regional Park District upon closing for long-term stewardship.	East	Alameda	Acquisition	\$25,000,000	
City of San Leandro	The Long Beach Shoreline Restoration Project	The Long Beach Shoreline Restoration Project will restore and enhance shoreline at the southern end of the San Leandro Shoreline Marshlands by placing beach-quality sand, repairing a breach at Bunker Marsh, and constructing nature-based features such as cobble sills and groins to stabilize the shoreline and reestablish natural tidal circulation.	East	Alameda	Planning, Permitting, Construction	\$8,300,000	
Solano Land Trust	Goat Island Tidal Marsh Restoration and Public Access Project	This project will restore wetlands, transition zone, and uplands, and improve and expand public access amenities, along the margin of Goat Island Marsh in Solano County.	North	Solano	Construction, Monitoring	\$6,694,853	Referred to SCC for funding
Alameda County Flood Control and Water Conservation District	Sulphur Creek Restoration Project at Franks Tract	This project will reconstruct a failing levee and restore tidal marsh and transition habitat to protect diked Baylands known as Franks Tract, and restore public access along a spur segment of the San Francisco Bay Trail.	East	Alameda	Construction, Monitoring	\$3,783,700	
Coastal Quest (fiscal sponsor for Ninth Root)	Sacred Spaces Project – Phase 2	This project will complete near final designs for shoreline restoration of beach, tidal marsh, and upland habitats and community design work for public access amenities at the Martin Luther King Jr. Regional Shoreline.	East	Alameda	Planning, Permitting	\$2,918,112	
San Francisco Bay Bird Observatory	Ecotone habitat restoration at Mt. Eden Creek	This project will enhance ecotone habitat along levees through management of invasive vegetation and establishment of native plant communities at Mt. Eden Creek and repair the E10 bayfront levee to maintain the managed pond habitat.	East	Alameda	Construction, Monitoring	\$2,474,691	

**San Francisco Bay Restoration Authority
Grant Round 9 Summary**

Note: Projects recommended for funding are shaded in green and listed in descending order by funding amount.

Organization	Project Name	Summary	Region	County	Project Phase	Amount Requested	Amount Recommended
Suisun Resource Conservation District	Wetlands Without Water? Phase 3 – Rehabilitating Essential Fish Screens of Suisun Marsh for Habitat Resiliency	This project will enhance seasonally managed wetlands by rehabilitating the degraded functionality of two high priority Essential Fish Screen (EFS) sites in Suisun Marsh.	North	Solano	Construction	\$1,711,289	
City of Alameda	Alameda South Shore Adaptation Project – Concept Design (Phase 2)	This project will develop a concept design to enhance Alameda’s South Shore beach areas, the Elsie Roemer Bird Sanctuary tidal marsh, offshore mudflats with its eelgrass beds while improving the Bay Trail and Water Trail and implementing stormwater management upgrades.	East	Alameda	Planning	\$1,600,000	
Catholic Charities of San Francisco	St Vincent’s Baylands SLR Adaptation Restoration Planning and Participation	This project will assess the implications of sea level rise adaptation scenarios of current land use planning efforts, conduct outreach, and model impacts to the project area, with the goal of building landowner consensus for planning a potential tidal wetland restoration project including the St. Vincent parcel and adjoining properties.	North	Marin	Planning	\$814,728	
John Muir Land Trust	Point Buckler Island Restoration Planning and Design	This project will plan and design the restoration of tidal marsh on the previously degraded Point Buckler Island in the Suisun Bay.	North	Solano	Planning, Permitting	\$600,000	
Sewerage Agency of Southern Marin	North Bothin Marsh Horizontal Levee Feasibility Study	This project will study the feasibility of a horizontal levee with tertiary wastewater treatment facilities at the North side of Bothin Marsh Open Space Preserve.	North	Marin	Planning	\$330,000	
Bahia HOA-Bahia Lagoon Committee	Bahia Tidal Marsh Enhancement Project	This project will enhance baylands habitat at the Bahia Tidal Marsh to preserve the functionality of the open channels by removing wood and foam debris and hosting stewardship activities.	North	Marin	Permitting, Construction, Monitoring	\$290,287	
City of Foster City	Sea Cloud II: Understanding, Engagement, Restoration	This project will design a multi-benefit open space by restoring seasonal wetland, enhancing ecological health, and creating opportunities for public access and nature-based education.	West	San Mateo	Planning	\$250,000
